

## **Antonio Rosario De Pascalis**

Born in Martano (LE) on 1963, he graduated with honors in 1987 in Economics at the University of Bari.

He achieved post-graduate specializations (insurance, banking, taxes), acquired professional experience (accountant, auditor, court expert) and obtained the qualification for teaching legal and economic subjects.

In 1990 he was recruited in ISVAP starting as supervisor on the technical, capital and financial aspects of insurance undertakings, with particular regard to investments.

He has been responsible for on-site inspections, off-site examinations, study and research activities.

In 1998 he was appointed Head of the Balance Sheets Section for Life and Non-life undertakings; subsequently he led the Capital and Pension Funds and the Consumer Protection Sections. With the establishment of IVASS, in June 2013 he was directed the Data Bank and Anti-fraud Division.

Since 2015 he has been Head of the Research and Data Management Directorate.

From 1988 to 2014, he was involved in academic research with La Sapienza (Rome) and Tuscia (Viterbo) Universities, publishing on economic, insurance and financial topics, and lectured at other universities including LUISS and Bocconi and at the Guardia di Finanza School.

He participated as speaker at national and international conferences and seminars, and published several articles and in-depth texts.
