

## **Alessandro Minoia - Head of Group Security - UniCredit**

Alessandro joined UniCredit in 2019 as a part of the bank's Group Infrastructure Protection team, before taking on responsibility in 2020 for the UniCredit Services Infrastructure Protection Area (covering network security, server/workload security, endpoint protection, cloud security and mobile security), as well as both the evolutions and service operations.

In 2022 he became Head of Group Security Solutions, Delivery & Innovation, responsible for the delivery and implementation of the Security Program for the UniCredit Group – reporting directly to the Head of Group Security of UniCredit.

In April 2024 he was appointed as new Head of Group Security

He previously built solid cybersecurity experience and a people-oriented approach during his roles as VP and Board Member of a telecommunication company, and CEO & Partner of cybersecurity firm KBE srl in San Marino.

Alessandro holds a bachelor's degree and a master's degree in Telecommunication engineering from Politecnico di Milano, as well as CISSP, CCSP, OSCP and 20+ vendor-specific certificates.

Outside UniCredit, Alessandro loves to spend quality time with his family in the mountains.
